

The Merritt Gazette

This is the first and the last issue of

the Merritt Gazette, a paper designed for the sole purpose of showing you how to create your own newsletter.

Since this is a one shot deal , I hope you are not expecting too much in the way of interesting reading

because you are REALLY going to be disappointed!

that you could have several opportunities to show your stuff when it comes to newsletter production. For one thing, people who know how to produce newsletters are a hot commodity on the open

market. You
could make a
FORTUNE!! If
you do, please
don't forget
my 10%.
